

Visus Cmore Solo HD

Reduce the time spent on inspection

Cmore Solo is an incredible High Definition quality inspection tool.

Cmore Solo takes very little space and is very easy to handle. You control it with the wireless remote control.

The system handles both near and distance viewing if needed.

Cmore Solo is a portable and foldable system that weights only 1,15 kg. It comes with a carrying bag if you need to move the system.

The working distance of the Cmore Solo is 270 mm and it is conectable with both USB and VGA.

Either use it with only a screen or with a PC /MAC for saving images and split screen possibilites.

Cmore Solo has an cabinet of anodized aluminium and injected plastic parts. .The anstistatic hausing makes it safe for esd sensitive PCB inspection work.

Cmore Solo is suitable for:

- ③ Quality control
- ③ Visual inspection
- ③ Task that need closer examination.
- ③ Gluing
