

# Kolb Cleaning Technology – maskinoversigt.

Klik på maskinnavnet og du bliver linket til Kolbs hjemmeside på produktet.

## Intelligent systems for every cleaning task

DCBs, PCBs, Misprints, Screens, Stencils, PumpPrints a.m.m.

**kolb** cleaning systems deliver solutions for all of the high demands which are made by the electronics producing industry, ranging from highly sensible ultra fine cleaning e.g. of DCB hybrid substrates and PCBs to heavily contaminated flux management systems or basic production tools, from small devices to large scale plants, from single use to full flexible hybrid cleaners.

Spezialisering, fleksibilitet og innovationsevne af **kolb** tillader hurtig tilpasning af alle systemer ifølge individuelle kunders krav og / eller højt komplekse nye processer.

## Which machine cleans which parts?

A complete overview

Application-Indicator ■ ■ ■

Systems	Fine Cleaning		Maintenance/Parts Cleaning		
	PCBs Misprints 	Stencils PumpPrints 	Carrier Solder Frames 	PCB-racks ESD-boxes 	Condensation Traps
